Compliance Overview

Compliant is the largest group: 26 of 40 records (65%).

Non Compliance

People drives most findings: 14 of 14 (100%).

Non Compliance Reasons

Main reason: Evidence & Documentation – 14 of 14 (100%).

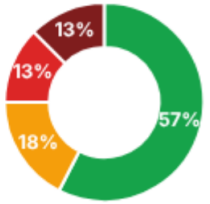

Evidence & Documentation
Process Compliance
SLA Adherence

Evidence & Documentation	**Total: 14**
Reason 0	**4 (28.6%)**
Reason 3	**4 (28.6%)**
Reason 1	**3 (21.4%)**
Reason 2	**3 (21.4%)**

Task Performance Distribution

57% of tasks were right and on time; 7 late, 5 wrong, 5 not done (of 40).

Right & On Time
Right but Late
Wrong Execution
Not Done

Corrective / Preventive

Preventive (tied with Corrective) actions lead: 7 of 14 (50%).

CAPA Status

4 of 14 CAPA closed (29%); 3 overdue.

Process Timeline Deviation (Days)

Compliance = Compliant ÷ assessed records · SLA = Done tasks On Time ÷ Done tasks with timing · colours: green ≥85%, orange 70–84%, red <70%. Follows the dashboard filters.

Summery

Auto-generated from 40 record(s) · 10/26/2026, 10:09:30 AM

FINDING	RECOMMENDED ACTION
Non-Compliance 14 non-compliance items are recorded, representing 35% of the 40 reviewed records. The leading reason are "Reason 0" (4 of 14, 28.6%).	Target the "Reason 0" reason with a focused corrective action and reinforce the related control to reduce recurrence.
SLA Adherence SLA adherence is at 77% across 30 measured steps. End Variance shows 40 steps finishing late by up to 2 days, with "Planning" as the main delayed phase.	Improve SLA performance by reviewing the breached steps and reinforcing turnaround co ntrols. Address the delay in the "Planning" phase (worst case 2 days) by reviewing execution capacity and removing bottlenecks in that phase.
CAPA 14 CAPA actions are recorded. Status: 4 closed, 10 open, 3 overdue.	Escalate the 3 overdue CAPAs to the action owner and set a firm closure date.
